Working Experience

Revel Systems **Backend Developer Intern** **2019 Summer**

Developed a web app that **alerts fraudulent operations** on POS machine
Designed the backend infrastructure and **NoSQL database schema**
Implemented the design with **AWS Lambda**, **AWS Kinesis**, **DynamoDB**
Applied **Docker**, **Gitlab CI/CD**, and **Agile Development**

Hisense-Hitachi **Full-stack Developer Intern** **2018 Summer**

Developed frontend pages and backend services of a **forum website**
Built the backend with **Java**, including **Spring**, **MyBatis**(ORM) and **Tomcat**
Applied **Oracle Database**; Applied **jQuery**, **AJAX**

Industrial and Commercial Bank of China
Java Developer Intern **2017 Summer**

Designed and developed a Java Desktop GUI software for **ETL**
Applied **Java Swing**, **Oracle Database**

Research and Projects

Invertor **Personal Project, Open-sourced** **Ongoing**

A **chrome extension** published on chrome store, based on Mozilla PDF.js
Capable of switching the **color theme of a PDF document** in chrome
Managed with **ZenHub**, with Agile Development

MetabParser **Research Project** **2019 Spring**

Designed and created **Java GUI** application that parses metabolic substance data and projects onto various graphs
Applied **JavaFX** framework and **Weka** (for visualization)

Financial Management
Personal Project, Open-sourced **2019 Spring**

A **web app** project to record and visualize personal daily expenditure
Built with **Express**, **Vue.js**, **MySQL**, and deployed on **Linux Ubuntu**
Managed via **SSH**

Education

Georgia Institute of Technology

Major: Computer Science
Major: Mathematics
Bachelor's degrees pursuing
Graduation year: **May 2021** (estimated)
Overall GPA **3.89** (CS **4.00**, Math **3.87**)

Leadership

GT-Offroad **Data Acquisition lead**
2017~2018

Developed embedded system with Arduino
Worked on RPM sensor
Designed remote information transmission system
Attended Baja SAE California 2017, Baja SAE Maryland 2018 and Midnight Mayhem 2017

Skill

Math Courses Taken

Differential Geometry
Probability Theory
Complex Analysis
Real Analysis
Abstract Algebra
Combinatorial Analysis
Linear Algebra
Multivariable Calculus
Differential Equation
